DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 7-12, 22-27 and 37-42 are rejected under 35 U.S.C. 102(b) as being anticipated by Riskin (US Patent No. 4,757,267).

As per claim 7, Riskin discloses a telephone system for connecting a customer to a supplier of goods. The system comprises storing in a database a set of bundle codes, each bundle code including a set of products offered by a plurality of providers. Note column 8, lines 13-25. Receiving a request identifying a customer and including a bundle code (column 7, line 39 to column 8, line 12). Converting a portion of the received request into a set of provisioning requests based on the received bundle code and providing the provisioning requests to the plurality of providers are taught on column 8, lines 37-55. The claimed "bundle code" is equivalent to the telephone number dialed by the caller. The dialed number contains yields the product, advertiser and advertisement data which when decodes provides an automatic link to the advertiser thereby providing the provisioning requests to the plurality of providers.

Art Unit: 2164

Riskin further teaches deciphering the bundle code to identify the plurality of providers for the selected products and storing information from the received request as a customer record.

The determining step and transmitting step are also taught by Riskin on column 8, line 37 to column 11, line 27.

- 3. Claims 13-16, 28-31 and 43-48 are allowable over the art of record.
- 4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Bushnell et al (4,071,697) discloses an interactive video/telephone transmission system.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Frantzy Poinvil, whose telephone number is (703) 305-9779. The examiner can normally be reached on Monday through Thursday from 7:30 AM to 6:00 PM.

The fax phone number for this Art Unit is (703) 305-0040.

Any inquiry of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (703) 305-3900. FP
